

# SMART JOULES<sup>TM</sup>

FRIENDLY SMART METERING

## MEET YOUR NEW ENERGY REPORT

- Community-based approach to energy measurement and control could help people save energy and money.
- We connect data from your switchboard to the Internet through a smart meter which we craft into information, beautiful visualizations and graphics.
- We then allow people to control their things and share their story with the community.

## SMARTJOULES – MAJOR FEATURES

- Continuously view total energy usage
- Find appliances using high energy
- Instantly view total bill
- Find your carbon emission
- Understand your peak consumption
- Compare with estimated usage
- Automatically receive alerts
- Easily configure your appliances for benchmarking
- Automatic emailing of reports and alerts
- One touch home energy auditing
- Easily add a number of meters for combined monitoring
- In-home display screen with slideshow
